

Foreword **Stephen Wheeler**

I am delighted to have taken over the management of SSE Renewables at pivotal time for the company, and a seminal moment for the energy industry as a whole. As we deliver the renewable energy needed to power the net zero transition, we remain committed to ensuring that we are a responsible neighbour who invests in local communities. The 112 projects supported in the last year in Northern Ireland show the impact that our funding can make as we look to a cleaner, more sustainable future. We look forward to continuing to work with communities to deliver on their aspirations and maximise the local benefits of the renewable energy revolution.

SAN

Stephen Wheeler Managing Director, SSE Renewables

Foreword Mark Ennis

The last year demonstrates the continued investment that the renewables industry makes to communtiies across Northern Ireland. Not only do our wind farms help provide a local and sustainable source of electricity but they also ensure communities can invest in local priorities. It is a testament to local communities that 20% of funding this year went on net zero projects, and it shows the strength of local commitment to ensuring a low carbon future. I am also proud that the funds are continuing to provide a stronger future for young people and I am delighted that we have marked our 100th scholarship at the University of Ulster.

FUNDER'S REPORT

NORTHERN IRELAND FUNDER'S REPORT

£445,000 awarded to communities in 2021/2022

112

projects supported in 2021/2022

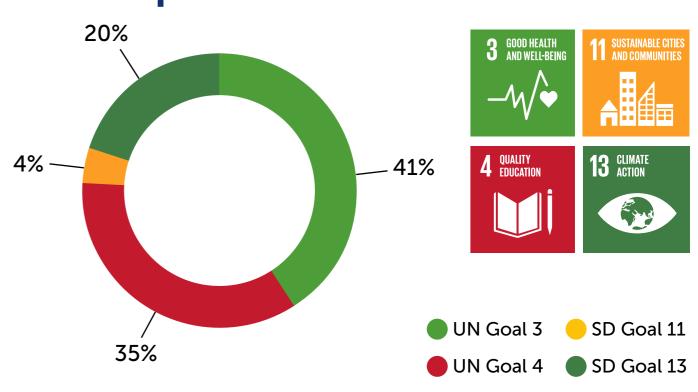

57 scholarships awarded in 2021/2022

2021/22 was a challenging year, with Covid-19 having a huge impact on all communities across Ireland. A key focus for SSE Renewables funding was supporting communities throughout the pandemic and helping them as they emerged, and restrictions eased. Funding was made available to facilitate the safe reopening of halls and financial support towards To support running costs. was offered due to the fundraising impact of Covid.

Young people were among the worst affected socially and mentally through Covid. SSE Renewables continued to provide scholarship opportunities for those living within the counties of the wind farms towards 3rd level education fees. Likewise, through partnerships with The Prince's Trust and Workspace NI, training courses and volunteering opportunities were provided to help support young people into the workplace.

Supporting the UN Sustainable Development Goals

2022/23 priorities

We expect the demand for funding and scholarships to increase and we will focus on the following areas in 2022/23:

Net zero acceleration – we will ensure that funds are available to support community groups to continue the transition to net zero and become less reliant on carbon.

Cost of living - the rising cost of living is challenging for everyone at present. It is hoped that the community funds can provide sustainable measures for groups to help reduce costs and promote climate action.

Training and scholarships – we will continue to support young people and students as they embark on 3rd level education, training courses and volunteering opportunities.

Investing in good health and wellbeing

St Michael's Primary School

£4,000 awarded in April 2021 Slieve Kirk Community Fund

Recognising the impact of Covid on children, staff at St Michaels Primary School wanted to focus on children's wellbeing both mentally and physically. Funding from the Slieve Kirk community fund provided an outdoor wellbeing area with canopy in which the children can garden and explore biodiversity in a fun outdoor setting. To help support the children mentally, funding was provided to facilitate a course called Relax Kids which provides the children with tools and techniques to help calm their bodies and build confidence and self-esteem.

Investing in good health and wellbeing

The Recreation and Exercise Centre

Tievenameenta Community Fund

The covid pandemic continued to be a focus for communities over the last year. Community groups across Northern Ireland had to adapt to new guidance on how they could re-open their services safely for participants. The Recreation and Exercise Centre in Ederney utilised a £3,000 donation to purchase additional exercise equipment for their gym. The new equipment meant that participants could maintain social distance within the gym and allowed for additional cleaning for materials in between uses. The equipment will continue to be used to encourage additional participation in exercise after covid restrictions end.

YOUNG PEOPLE YOUNG PEOPLE

Supporting quality education

57 Scholarships awarded £188,000 invested

The SSE Renewables Scholarship Fund supported 57 new third-level students as they undergo their degrees this year.

The SSE Renewables Scholarship Fund Programme, previously named SSE Airtricity Scholarship Fund, has now supported 322 scholars since the programme was launched in 2014, providing over £888,000 in financial support. The 2021/22 fund provided more than £188,000 to support 16 students at Ulster University, 23 at the North West Regional College and 17 at South West College.

Creating opportunities for young people

The Prince's Trust

The Covid-19 pandemic impacted across all aspects of our lives - globally, nationally, and locally. Whilst there have been some signs of recovery such as falling unemployment rates, young people aged 16-24 years remain more than 3 times more likely to be unemployed than 25-64-year-olds.

Each year of our five-year partnership, SSE Renewables will support The Prince's Trust to deliver two key initiatives to benefit young people within the Limavady and Derry/ Londonderry areas:

DEVELOPMENT AWARD

Nine young people from the Limavady and Derry/Londonderry area were awarded with grants to enable them to take up places on varied vocational courses which had an essential requirement for them to have their own equipment and materials. These included materials and equipment for courses in joinery, bricklaying, plastering, hairdressing (x2), cookery, hospitality, and animal care, representing the wide range of different sectoral opportunities that the beneficiaries were pursuing employment in.

TEAMS PROGRAMME

Team is a 12-week personal development programme for young people aged 16-24 years offering work experience, employability skills development, qualifications, practical skills, and a community project work delivered throughout Northern Ireland.

On completion of the Limavady Teams programme in September 2021 three people secured volunteering positions, two moved into further education and three secured full-time employment.

Funding awards 2021/22

Bessy Bell Wind Farm

Bessy Bell Community Fund is made up of Bessy Bell 1 and Bessy Bell 2. The wind farms are located at Baronscourt, Co Tyrone and awards c.£25k annually to community groups within 12 miles of the wind farms.

COMMUNITY GROUP	PROJECT	AMOUNT (£)
Urney St Columba's GAC	Upgrade internal doors.	£1,000
