The methodology detailing how visualisations have been prepared is included as Technical Appendix 8.1 in Volume 4 of the EIA Report. Visualisations are best viewed at the viewpoint location. For printed images, view at the specified paper size, flat at a comfortable arm's length, as per viewing instructions on each Figure V3b - . It is preferable to view printed images, but if viewing images on a screen, enlarge to the full screen height on a full size computer screen, rather than on a tablet, phone or other small screen. Further viewing instructions for visualisations are contained in Technical Appendix 8.1 in Volume 4 of the EIA Report.
