Technical Appendix 10.3: Cultural Heritage Assets in the Outer Study Area with No Predicted Visibility

Technical Appendix 10.3: Cultural Heritage Assets in the Outer Study Area with No Predicted Visibility

- 10.3.1. This appendix provides details on the designated cultural heritage assets and non-designated NSR sites recorded in the West of Scotland Archaeology Service (WoSAS) Historic Environment Record (HER) as being of potential national significance (*Code C & V*) recorded within the 10km Outer Study Area, with no predicted visibility of the Consented Development, nor any predicted visibility of the Proposed Varied Development.
- 10.3.2. In addition, no views of cultural significance to, or across, these assets have been identified with visibility of the Proposed Varied Development. These assets have therefore not been included in the tabulated assessment of setting impacts (**Volume 4, Technical Appendix 10.2**).
- 10.3.3. Category C Listed Buildings of local significance have been assessed only within 5km of the Site. Further details of this can be found in **Chapter 10, Section 10.3** of the S36C Scoping Report (SSE Renewables 2025).
- 10.3.4. Assets with no visibility of the Consented Development, but now with predicted visibility of the Proposed Varied Development, identified from the revised Zone of Theoretical Visibility (ZTV) model (**Volume 3a, Figure 10.3**), have been included within **Volume 4, Technical Appendix 10.2**.
