

Volume 3b – Contents

The methodology detailing how visualisations have been prepared is included as **Technical Appendix 5.1** in **Volume 4** of the EIA Report. Visualisations are best viewed at the viewpoint location. For printed images, view at the specified paper size, flat at a comfortable arm's length, as per viewing instructions on each figure. It is preferable to view printed images, but if viewing images on a screen, enlarge to the full screen height on a full size computer screen, rather than on a tablet, phone or other small screen. Further viewing instructions for visualisations are contained in **Section 3.6 Technical Appendix 5.1** in **Volume 4** of the EIA Report.
